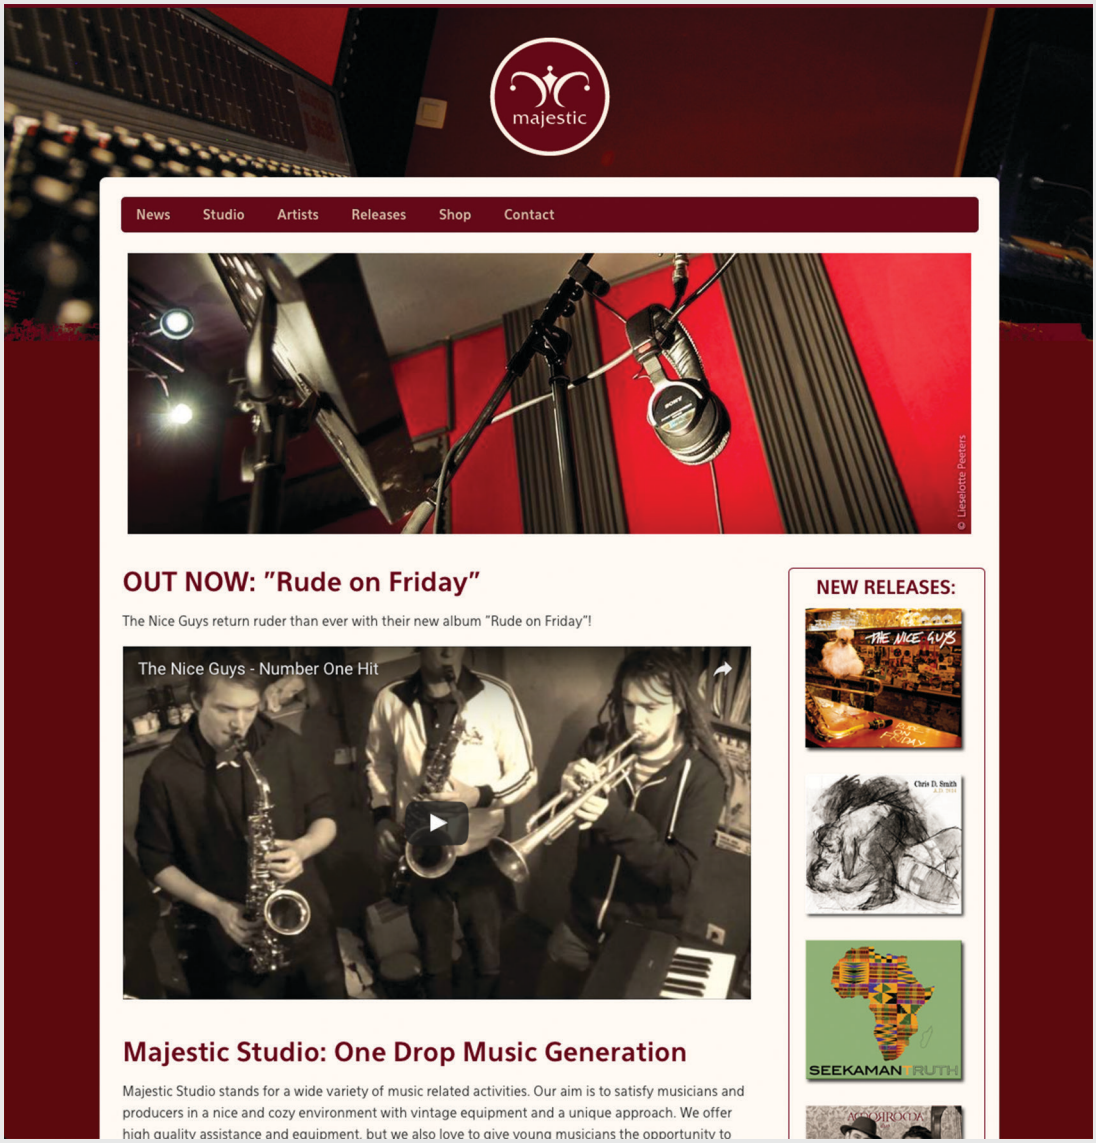
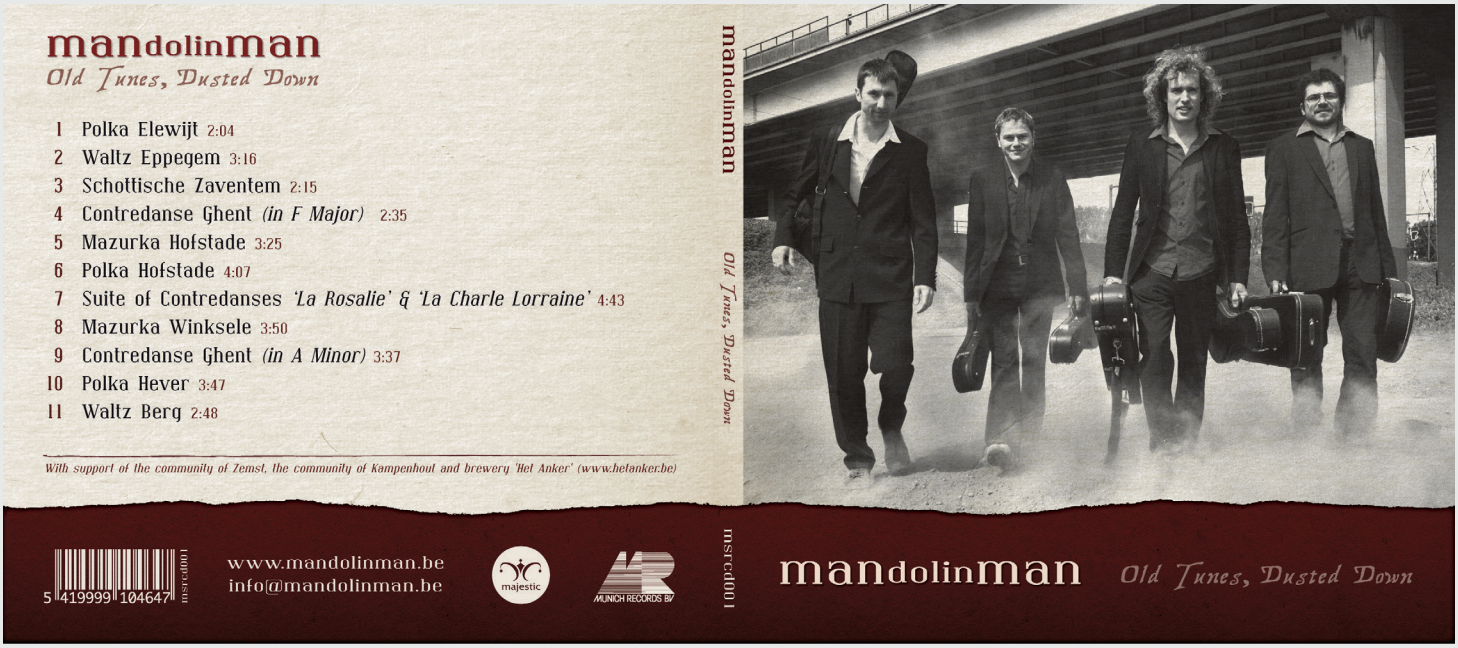
Majestic Studio www.majesticstudio.be

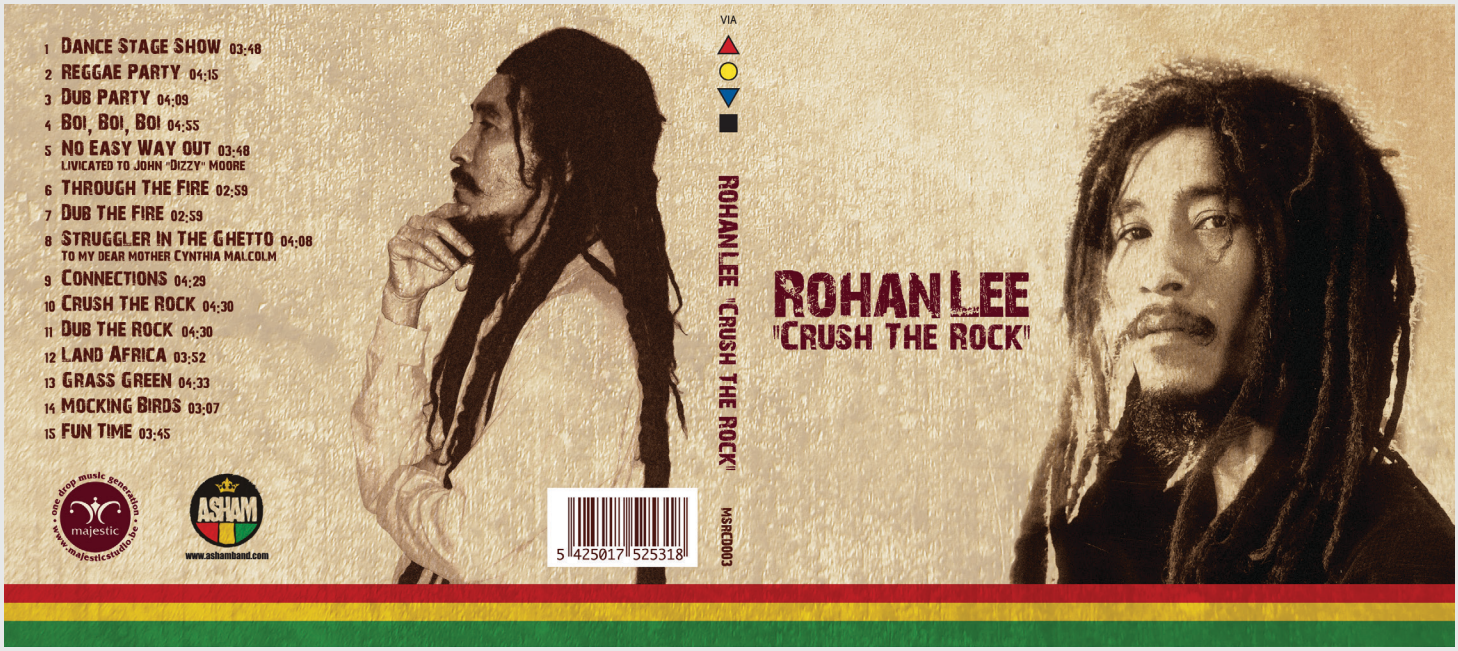
A logo that can work in a minimal, stylish setting as well as in a rough, grungy design. Could be a king's crown, could be a fool's cap — like the recording studio & its associated label itself, it can handle anything in style, from folk and reggae to experimental dub, punk, metal or dubstep...

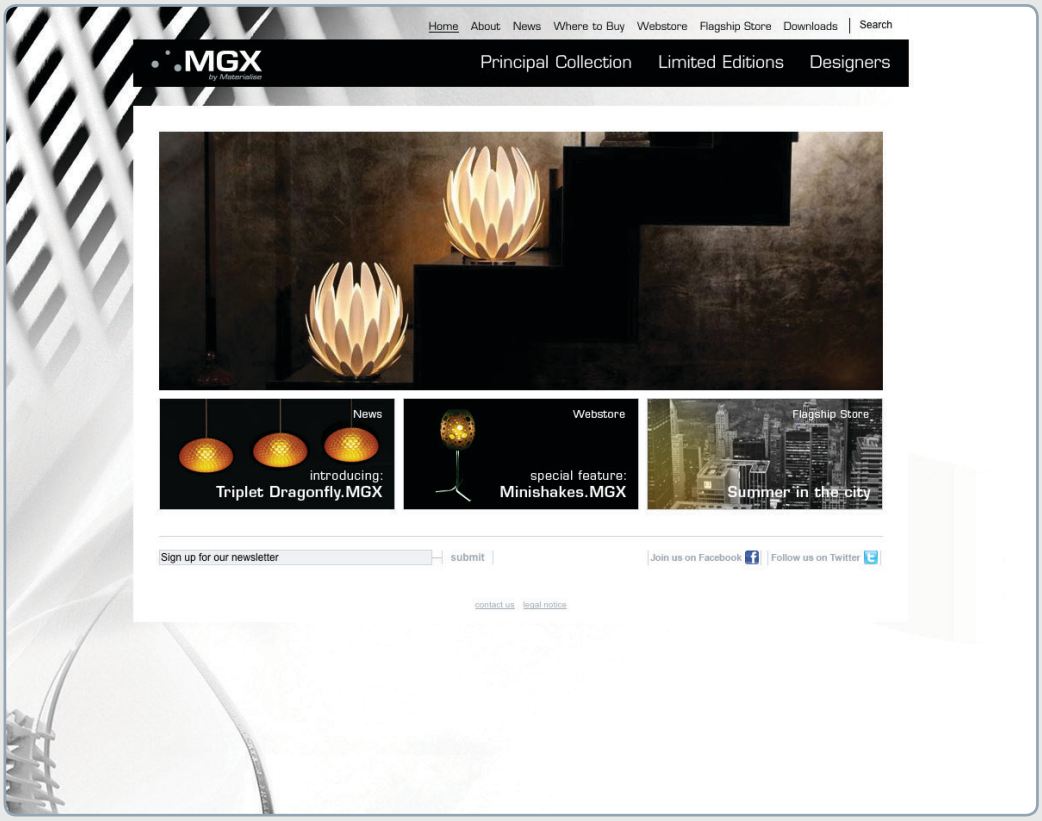


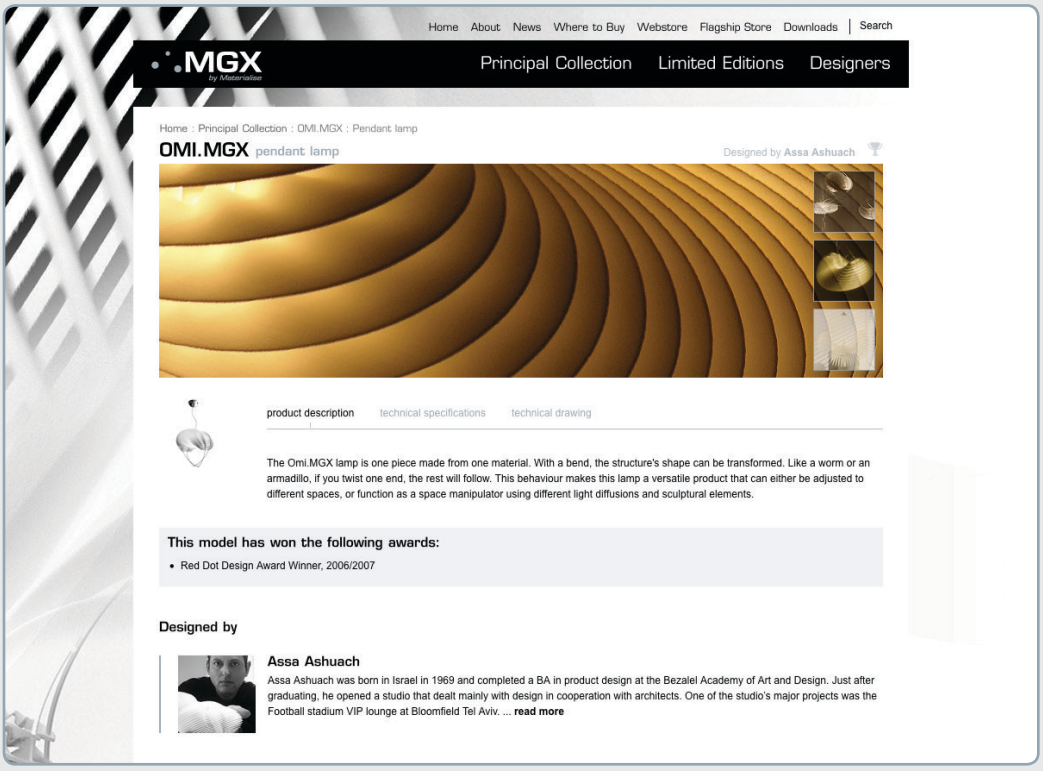


Majestic Studio releases www.majesticstudio.be

Sleeve designs for some of the most recent Majestic releases.

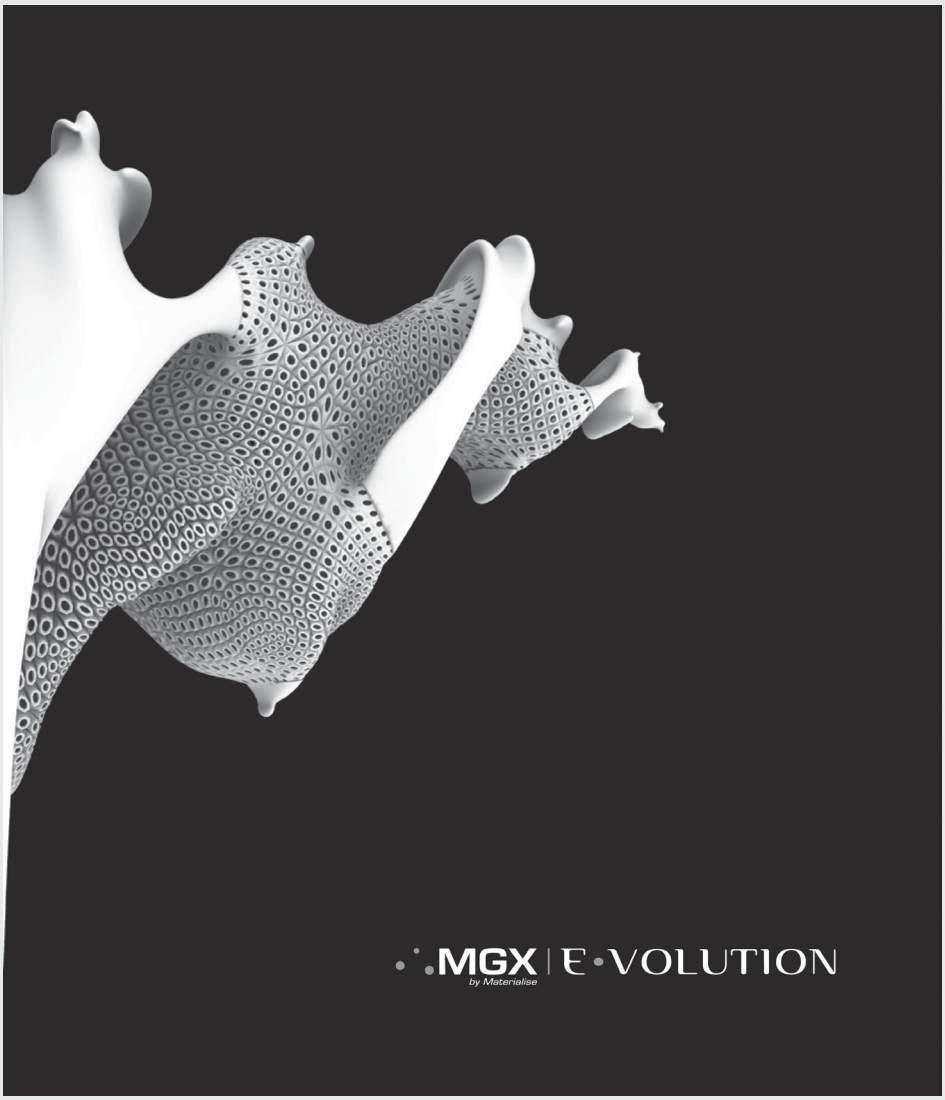






.MGX by Materialise www.mgxbymaterialise.com

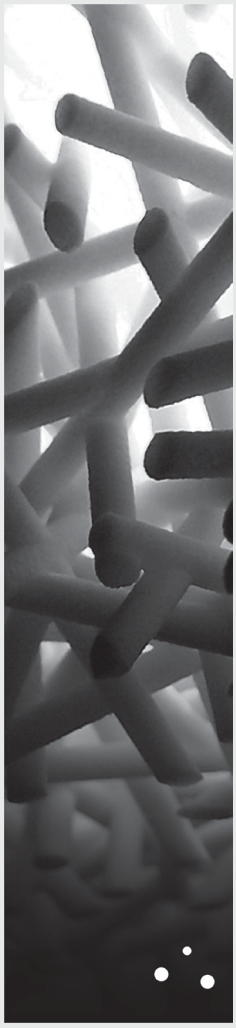
Website design — graphics & optimizing usability
(back-end development by Delius.be)

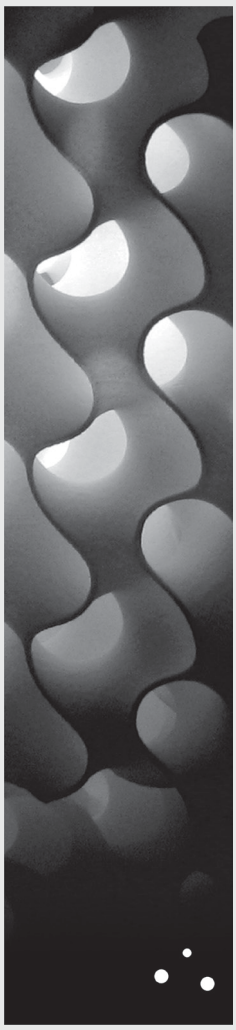


.MGX by Materialise www.mgxbymaterialise.com

Logo and catalogue design for the 2009-2010 .MGX "E-volution" collection, combining minimalistic high-tech and the organic feel of fractal-based design.

(image: detail of a rendering of Peter Jansen's "Julia.MGX" interior light)



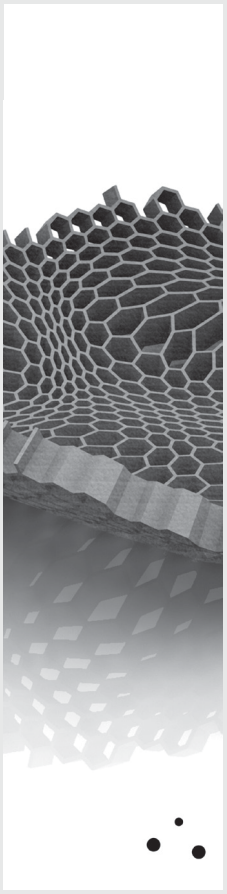


.MGX by Materialise

www.mgxbymaterialise.com

A series of semi-transparent textile banners featuring close-up details of .MGX products (left: lighting; bottom: design bowls).

Designed for the .MGX booth at the Milan Design Week, these banners blend in prefectly with the lighting when hung throughout the booth — acting as buffers between the displays of the actual products and simultaneously turning the booth into a kaleidoscopic 3D display in its own right.



RoSa vzw www.rosavzw.be

New logo and accompanying housestyle for RoSa vzw

rosa kenniscentrum voor gender en feminisme

Sea Shepherd Conservation Society www.seashepherd.org

New 2012 brochure for Sea Shepherd Belgium, in two versions (one aimed at the "Whale Wars" audience, another targeting a more conservative-minded audience

't Kraaienest www.tkraaienest.be

Vegan catering company, also selling its own brand of seitan.

Joomla-based website template and printed material developed in a clean but warm style with the requested pirate trimmings.

Materialise Dental www.materialisedental.com

Multilingual installer DVD interfaces providing buttons to automate the installation of medical software packages and manuals for the less computer-savvy medical specialists, and featuring a short video listing the software's newest features.

Bite Back

www.biteback.org

A series of colorful, in-your-face leaflets with detailed information and number, explaining the impact of the meat, dairy and fish industies on the health of various ecosystems and the human population, respectively, and a third advocating to end the brutality of the fur industry.

InMoDis expo

Cooperation with several other visual artists, bringing tribal imagery into the post-industrial age.
(It wasn't as intellectual as it sounds. Honestly.)

合気会楽天塾

AIKIKAI RAKTENJUKU

Aikikai RakTenJuku
www.raktenjuku.be

Logo & housestyle design for local dojo.

some miscellaneous older material

clockwise:

- logo for "Escape Velocity Nova: Hyperion" plugin, a total conversion module for an old computer game based on Dan Simmons' Hyperion novels (hobby project, never got past alpha stage due to increasing lack of spare time)
- logo for the Pumpkin Liberation Front, a shady DIY collective that saved uncarved decorative pumpkins from wasting away after Halloween and made anonymous donations of pumpkin soup to local soup kitchens each year
- two "quick & dirty" flyers for benefit gigs at a local social centre
